EXPERIENCE

Consultant

JK TECH

Apr 2023 – Present

Hybrid – NOIDA, UP, INDIA

- **Project:** Juris Claim Management
- **Project Description:** Juris Claim Management is GUI based application, developed in progress 4GL GUI. It is used by the TPA or Examiner to report a claim to state debt authorities. Also, through this application, the examiner records the life cycle of the claim process and benefits given to claimant. It has several modules: Casualty, Disability. I am working with Disability Modules. I am part of WIT Team.
- **Team:** Team Taking Care Of Disability Modules.
- **Team Structure:** In Disability there are three teams: 1 - JDI, 2 - TMT, 3 - WIT.
- **WIT Team:** I am a part of WIT Team. In my team there are three members.
- **Role Description:** Basically in WIT Project, we deal with HR Data like loading the data and check whether proper data is loaded or not and if there are changes required in .p files based on requirement we have to change that. Then doing Unit Testing And Prepare Technical Design Documents.
- **Skill Used:** Progress 4GL Programming, GUI.
